

2 LUXURY HOUSES ON LAKE FLOREASCA

Architect	ADEST ARCHITECTURE
Location	1T Țărmului Street, Bucharest, 1st District
Function	Housing
Scale	2 000 sqm
Client	Private
Year	2005 — 2018

The building was designed on the West bank of Lake Floreasca to meet the client's brief, maximizing the sense of space using a palette of materials and colors, which are uplifting and welcoming even on a cold and grey winter day. A double height central space with a mezzanine forms the sociable hub of the homes. The private areas are discretely separate to this space within two stacks of accommodation. One provides the clients with generous bedroom, bathroom and study areas, while the other houses the guest suites. Two different houses with the same primary function define each of them the sense of duality.
