

MILAN EXPO 2015 ROMANIAN PAVILION

Architect	ADEST ARCHITECTURE
Location	Milan Expo 2015, Italy
Function	Cultural, Restaurant
Scale	1 300 sqm
Client	Romanian Ministry of Foreign Affairs
Year	2014-2015

The Romanian Pavilion at Milan Expo 2015 revolved around the coexistence of modern technology and urban lifestyle connected with the nature around it. It consists of two main layers: the ground floor, with media-partition walls, some of which are rotary, granting greater flexibility for the entire space, and the first floor, housing the restaurant, showcasing the contrast between the tradition wooden floor, wooden beams, reed roofing and and contemporary media displays, glass furnishings and stainless steel cables.
